Library

Bringing coding for kids to the Rockton Community!

Start your computer programming adventure with **STEM for Kids** at Talcott Free Library!

3rd - 6th graders will explore how coding can bring their imaginations to life!

In this introductory programming class participants will discover the power of coding through animating their names, making videos, and creating their own projects!

Saturdays:
January 6th- February 10th
10:00- 11:30 am
6 weeks for just \$80!
Sign up and pay at
