Questions? Contact Donna 608-352-8330

Everyone welcome to watch the battles!

Robotic Challenge Teams*

***We will do our best to accommodate group requests- email any requests**

Teams will be created upon arrival.* Each team will be provided a STEM Coach to facilitate their team. 3 challenges will be given to each team. Teams will have time to imagine, plan, build, test, retest and compete with their robots. Teams will enter their robots into each challenge in which they will earn points based on their success to meet the standards of the challenges. Ranking will be based on total accumulated points of all three challenges. Our focus is FUN with an effort to challenge each participant to stretch their collaboration, communication, creativity, and critical thinking!

4 Roboteers -1 STEM Coach - 2 Kits - 2 hubs - 2 motors - 4 sensors

Many **STEM for Kids** Robotic Challenges to take down!
